

# Rapolu Naga Rishika

Cherlapally,

Hyderabad,500051

+91 7330926871

[rishikareddy1024@gmail.com](mailto:rishikareddy1024@gmail.com)

## EXPERIENCE

### Certification:

CISCO-Python Essentials

AWS Academy- AWS Cloud Practitioner Essentials

AWS Academy-Cloud Foundations

AWS Academy-Machine learning Foundations

ChatGPT MasterClass -UDEMY

Python for beginners to advance -UDEMY

### Internships:

EDU SKILLS-AIML Virtual Internship

1stop ai – Artificial Intelligence – Personify

## EDUCATION

### Nalla Malla Reddy Engineering College, Hyderabad- B.tech

Currently Pursuing (2021-2025)

Specialization- Artificial Intelligence & Machine Learning

## PROJECTS

### Fake Currency Detection using Machine Learning

The development of this ML model involves training a model to identify counterfeit notes by analyzing various features like texture, color, and patterns. The model learns from examples of both real and fake notes.

### Lung Cancer Detection using Machine Learning

This project aims to predict lung cancer using Multiple Linear Regression and Logistic Regression algorithm. By analyzing various factors it detects the lung cancer .

### Music genre Classification using Deep Learning

Music genre classification using deep learning is a way to automatically sort songs into categories like rock, jazz, or classical. It uses CNN that learn patterns in sound like rhythm and melody, from lots of music data. These models can then predict the genre of a new song by recognizing similar patterns.

## TECHNICAL SKILLS

C Programming

Python

Cloud computing

Artificial Intelligence

Machine Learning

Data Structures

## APPLICATION SOFTWARE

MS Office

## SOFT SKILLS

Communication Skills

Adaptability

Problem Solving

Time Management

## HOBBIES

Reading Books,

Listening music

## LANGUAGES
